

## **PROPER USE OF CARTRIDGES**

Do not recharge under no circumstances. Do not expose to temperatures below -20°C and above 50 °C. Protect cartridge from direct sun exposure and check that it is in perfect condition and has not been forced. Connect –disconnect the cartridge in a well-ventilated area. Do not smoke while using the torch. Always keep away from children. Transportation is not allowed. Dispose of the empty cartridge preferably through a special package collection service, if there is one available in your municipality.
